FALLS CITY RECEIVES GRANT

Falls City awarded a \$50,000 ODOT / DLCD Grant for a Transportation System Plan.

The Department of Land Conservation and Development (DLCD), and the Oregon Department of Transportation (ODOT) recently awarded the City of Falls City a \$50,000 grant through the joint Transportation Growth Management (TGM) program.

Oregon's Transportation and Growth Management Program supports community efforts to expand transportation choices for people. By linking land use and transportation planning, TGM works in partnership with local governments to create vibrant, livable places in which people can walk, bike, take transit or drive where they want to go.

TGM grants help local communities plan for streets and land use in a way that creates livable transportation and efficient communities.

The City of Falls City was assisted by Mid Willamette Valley Council of Government in the preparation of the grant application.
