FALLS CITY RECEIVES GRANT

Falls City awarded a \$106,000 CDBG Grant for a Wastewater Facility's Plan.

The Infrastructure Finance Authority of the Oregon Business Development Department (OBDD-IFA) recently awarded grants for five (5) city projects (Falls City being one). The grants from the Oregon Community Development Block Grant (CDBG) program are made to assist rural communities with funding for important projects around the State.

City of Falls City - The City of Falls City owns and operates a wastewater treatment and collection system, under a federal NPDES permit issued by DEQ. The existing Wastewater Facilities Plan is outdated and the city engineer had identified several system deficiencies. The city will use the \$106,500 CDBG grant to prepare a DEQ approved Wastewater Facilities Plan.
